

Utility Assistance Program

Santaquin City recognizes the financial difficulty that the Water Reclamation Facility (WRF) Project has imposed on our citizens who are on fixed incomes. To assist those who are most in need, we are seeking donations from all those who are in a position to assist. 100% of donations collected will be used to assist those who qualify for assistance.

What Assistance is Available?

For those who qualify, this program will provide financial assistance to off set the WRF utility rate increase. Those who qualify may receive up to \$20 per month over a six month period as a credit on their utility bill. Those receiving assistance are eligible to re-apply every six months.

Who is Eligible to Apply?

Any Santaquin City Utility Customer who is either:
60 years old or older –Or– Temporarily or Permanently Disabled
-And-

Those who's income does not exceed the HUD Very Low or Extremely Low guidelines for FY2010 in Utah County (See Below)

How do I apply?

Eligible candidates must fill out a Santaquin City Utility Assistance Application. Application will be evaluated and ranked as to their need.

Because this is a donation funded program, resources may not always be available. Those who have qualified under available resources will be notified as to the amount and duration of the assistance committed to their application.

How often can I apply?

Utility Customers can apply every six months.

Question?
